

LA COBRA

COB-67

- Sets 3/32" to 5/32" diameter rivets in all materials and sets 3/16" in steel and aluminum
- Pulling force: 1,980 lbs.; Stroke .625"
- Working air pressure: 85 PSI
- Weight: 3.2 lbs.

CELUS
CELUS FASTENERS MFG. INC.

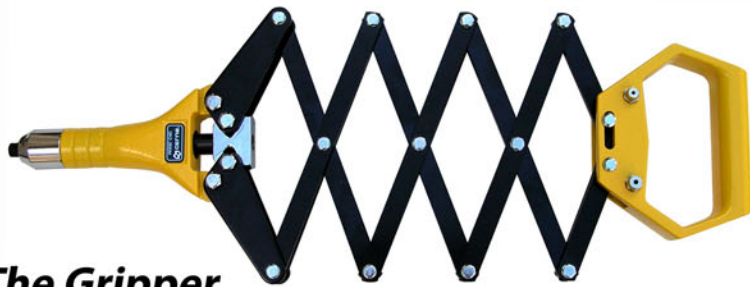

C/1B - Commercial Tool

Medium duty manual rivet tool designed to set rivets 3/32" through 3/16" diameters in low production, commercial applications. The tool is equipped with 4 nosepieces.

C/2B - The One Hander

A light weight, heavy duty rivet tool designed and quality engineered to set all rivets 3/32" through 3/16" diameter in one easy stroke. Also available in Kits.

C/6C - The Gripper

This heavy duty hand tool will set rivet diameters 1/8 through 3/16" and is an excellent value for production areas without readily available power sources. The tool is equipped with 3 nosepieces.

Also Available - See the Celus Catalog
Rivet-Nut Insert Setting Tools - Hand and Air Power
AC Powered Electric Riveter
Pistol Grip Riveter with Remote Air Pump
Verticle Access Production Riveter
Mandrel Collection Options

C/9B - Heavy Duty Hand Riveter

This hand riveter has special construction features that take the hard work out of setting large rivets by hand. It even sets up to 1/4", monobolt-type structural rivets including Celus Tigerbolts™ using optional nosepieces. The C/9B comes complete with 5 nose pieces.

AR-021EX - Production Grade

The Lobster EX series is designed to meet the high performance requirements demanded by structural rivets . The AR-021EX includes 3/16" and 1/4" nosepieces for setting both standard and monobolt-type structural rivets including Celus Tigerbolts™.

AR-2000 Series Rivet Tools - Lightweight, fast and durable

The production grade 2000 Series riveters are built with a high-impact polymer case and are available in small "S", medium "M" and heavy "H" models so you can get just the riveting power you need for the best overall value. The 2000 Series feature quicker rivet setting cycle and longer stroke for increased productivity. Lobster's exclusive Soft-Set® shockless technology absorbs jarring vibrations, which enhances worker productivity and safety by reducing the risks of CTDs.

BR-200M Cordless Battery Operated Rivet Tool

The Lobster BR-200M offers cordless convenience with dedicated design and rotary mechanism for continuous, infinite stroke. The cordless tool is ideal for use in auto repair and restoration, outdoor sign construction, heating ventilation and air conditioning, and other on-site construction applications. The BR-200M has a rivet capacity of 3/16" diameter in all materials, and comes with a two-speed gear driven motor. It is equipped with four nosepieces. Available in 120v, model ER-300N.
